

FORM 26**ROCKY FLATS ENVIRONMENTAL TECHNOLOGY SITE
REGULATORY CONTACT RECORD**

Date: 7/10/96

Site Contact(s): Kirk Ticknor

Extension: 6344

Regulatory Contact(s): Chris Gilbreath

Extension: 692-3371

Agency: CDPHE

Purpose of contact: DEFERRAL OF RCRA CLOSURE IN BUILDING 889

During the compliance issues meeting with CDPHE on 6/25/96, I committed to Cathy Alstatt to follow-up with Chris Gilbreath about the issue of deferring closure of the sumps in Building 889 that are part of Unit 40 Process Waste Water Collection System. I called Chris and proposed that we defer closure of those sumps until final remediation of the area under RFCA, since the base of Building 889 will remain in place after D&D is completed.

Chris called back on 7/10/96, and said that it would be OK to defer closure of the sumps as long as a durable cover is installed over the sumps.

Follow-up required (list any documents requested):

None, except Mark Hickman (889 D&D Project) agreed to provide me with documentation stating that the sumps in Building 889 have been covered as soon as that is done. Mark will also give me documentation pertaining to the waste drums that were used to contain the stripped out sections of the above-ground hazardous waste piping associated with those sumps. I will then put this information into the closure files for Building 889.

DISTRIBUTION

*Copies of any documentation supplied should be attached to this record and sent to the appropriate individuals as designated by an asterisk.

FOR ENVIRONMENTAL CONTACTS:

<u>Fax</u>	<u>Name</u>	<u>Company</u>	<u>Building</u>
